INDICATED CROP PRODUCTION BY CROP REPORTING DISTRICTS

To supply information which can be utilized in facilitating the storage and orderly movement of 1942 crops, the Crop Reporting Board has compiled the following estimates of production by Crop Reporting Districts. These estimates are for soybeans harvested for beans in the five States, Ohio, Indiana, Illinois, Iowa, and Missouri; and for spring wheat, oats, barley, and flaxseed in the States, Minnesota, North Dakota, South Dakota, and Montana. For each State, the district estimates total to the official State production published in the General Crop Report on September 10, 1942. For the purposes of comparison, estimates of production by districts are shown for 1940 and 1941.

Soybeans for Beans

State	Crop	Production		
	Reporting District	1940	1941	Indicated Sept. 1, 1942
